Who has the Right to Cancel Revenue Stamps.

Section 94 of the excise law requires that on and after the first day of October," certain "stamp duties" shall be collected on all instruments, matters, and things, as described in the schedule marked "B."

Secton 95 provides that if any person or persons shall make, sign, or issue or cause to be made, signed or issued, any instrument, document, or paper, of any kind or description whatsoever, without the same being duly stamped for denoting the duty imposed thereon, without having thereupon an adhesive stamp to denote said duty, such person or persons amount due us for the Daily in the city, shall incur a penalty of fifty dollars, with the rugularity that should attend and such instrument, document, or paper

It seems to me perfectly clear, that, by the provisions of section 25, the person governed by the cash in advance princi- ment is the only person who is authorized to affix the stamp required by law. and the person who makes, signs, and issues, etc., without affixing the stamp, incurs the penalty aforesaid, and is liable to prosecution therefor, and the instrument or document is invalid in conse-

quence of such neglect. Section 99 provides that the person issuing or affixing the stamp shall write ime to prevent it. Our Agent cannot thereupon the initials of his name, date, etc. Other portions of the law impose penalties upon persons who receive documents or articles subject to stamp duty tion proclamation. from the person who makes, signs, and ers in arrears will please pay the soute issues them without being duly stamped,

I am, therefore, of the opinion that a ments of the provisions of the excise de-

First-That all papers subject to stamp tax shall have the stamp affled before the same is issued.

Second-That the stamp so affixed must be cancelled in the manner prescribed by the party making, signing, or issuing (in other words, executing) the side. instrument, document, or paper.

Hence the receiving of an unstamped paper is a violation of the law. The attaching and caucelling of a stamp, or a document so received, is also unlawful, and the cancellation of a stamp on a paper (otherwise lawfully issued) by Havanna. other than the party executing the paper to which the stamp is attached, is equally

The only exception that exists in the law to the above ruling is in the case of a bill of exchange or order for the paycoers, for she is a great favorite in this ment of any sum of money, drawn or city, and deservedly so, too, for she is an purporting to be drawn in any foreign men. Pemberton and Price are making country, but payable in the United States, in which case the acceptor or acceptors her first appearance under the present shall, before paying or accepting the engagement this evening, in the 'Daugh- same, place thereupon a stamp, indicatter of the Regiment." We anticipate a ling the duty upon the same, as provided by section 101 of the same law.

The N. Y. World thinks the full imhapel, No. 2 (McKendree M. E. Church), port of all Mr. Gladstone said in his Newcastle speech has as yet been scarcely understood in this country. There is hight the rebels. Tally, after scratching one clause in the following sentence his head and rubbing his shins a few at 61% o'clock, P. M., by Rev. Mr. Dillon, which has been entirely overlooked. It quotes; "Jeff Davis and the other leaders of the South have made an army; ago, an' trus de Lord ter get me ober they are making, it appears, a navy, and they here, an' he dun it; but I dun dare to have made, what is more than either, a nation," and says the supreme imporis held regularly every Sabbath morning, tance to us of the last sentence has led our people to overlook the fact which is announced in the words above italicized. The British Chancellor of the Exchequer is aware, it seems, of the building of war vessels for use against the naval for the present its meetings. Preaching power of the United States. The last arrival gives us the key to these words. It is now stated upon good authority that upwards of twenty vessels are openly building for the Confederate Government in the various English ports.
